Ihnestr. 22/UG 5

This course offers a comparative look at the Russian WTO accession and membership. It starts with the WTO general overview and an outline of Russian accession. Prospects and possible repercussions of Russia's WTO membership and foreign trade with major trading partners (the EU, the CIS-members, China) will be examined. Russian perspective of the Doha round of the WTO negotiations will be discussed in the final part of the course.

The course is part of the master program in East European Studies.

The event is hosted by the Institute of East European Studies. We welcome numerous participation and debate.
